

HYBA COVID-19 Guidelines

The purpose of these guidelines is for HYBA to play spring 2021 baseball. The safety of everyone involved is very important to us. We are all in this together and we ask that all coaches, players, spectators, and staff review and adhere to these guidelines. Please take note that these guidelines are subject to change based on the CDC and State guidelines.

1. Parent responsibility before arriving for baseball activities

- Take temperature before attending any baseball activity. Reading over 100 is an automatic NO PARTICIPATION in any baseball activity.
- Communicate temperature reading if above 100 to your child's manager.
- Ensure your player has a face covering in their bag for use as needed

2. Procedures at the fields

- Parents and players should maintain social distance as much as possible.
- It is the responsibility of all adults and players to utilize face coverings when not able to abide by social distancing protocols.
- Players must bring their own water bottle.
- No food, sunflower seeds, gum, or spitting.
- Players should use their own equipment (helmets, bats, and gloves) as much as possible.
- Coaches should wear face coverings when they are unable to social distance from players or parents.
- Players and coaches should refrain from using high fives, group celebrations, and physical touching between each other.
- Team huddles/talks should keep the kids spread out as much as possible.
- Teams will line up and tip their caps to each other rather than the traditional handshake lines.
